Personal Statement

I earned my MSc in Information Technology in 2022 from Bahir Dar Institute of Technology, where my thesis focused on Natural Language Processing for low-resourced languages. This research led to publications, showcasing my commitment for AI research. My research interests center on Machine Learning for NLP and Computer Vision, particularly in applying pre-trained models for low-resource settings. Beyond research, I have developed strong collaboration and teamwork skills through research and project works. These experiences have enhanced my ability to work in diverse teams to achieve meaningful outcomes.

Employment History

- 08/2022 – Current  **Lecture**, Information Technology Department, School of Computing and Informatics, Mizan-Tepi University, Ethiopia.
Conducting NLP and computer vision research, teaching AI and programming courses, and advising students for their final year project.
- 09/2019 – 10/2020  **Assistance Lecturer**, Information Technology Department, School of Computing and Informatics, Mizan-Tepi University, Ethiopia.
Teaching, and advising students for their final year project.

Education

- 11/2020 – 08/2022  **MSc** Information Technology, Bahir Dar Institute of Technology, Ethiopia.
Thesis: Lexical Complexity Detection and Simplification in Amharic Text Using Machine Learning Approach.
- 10/2015 – 08/2019  **BSc** Information Technology, Mizan-Tepi University, Ethiopia.
Project: Android Based Tepi Town Crime Report System.

Research Publications

-  **Nigusie, G., & Tegegne, T. (2022).** Amharic text complexity classification using supervised machine learning. Artificial Intelligence and Digitalization for Sustainable Development (ICAST 2022), 12–23. <https://doi.org/10.1007/978-3-031-28725-11>.
-  **Nigusie, G., & Tegegne, T. (2022).** Lexical complexity detection and simplification in Amharic text using machine learning approach. IEEE 4th International Conference on ICT for Development for Africa (ICT4DA 2022), 1–6. <https://doi.org/10.1109/ICT4DA56482.2022.9971306>.

Conference & Workshop Presentations

-  Applying Hybrid Approach of Complexity Annotator Tool and Machine Learning for Lexical Complexity Detection and Simplification in Amharic Text, Deep Learning Indaba 2024, September 2024, Dakar, Senegal.
-  Amharic text complexity classification using complexity annotator tool and supervised machine learning, AAAI Conference on Artificial Intelligence (AAAI-24), February 2024, Vancouver, Canada.
-  Amharic Text Complexity Classification using Supervised Machine Learning, 10th EAI International conference on Advancement of Science and Technology, November 2022, Bahir Dar, Ethiopia.

Conference & Workshop Presentations (continued)

- Amharic text complexity classification using complexity annotator tool and supervised machine learning, The 2nd PanAfrican Conference on Artificial Intelligence, October 2023, Addis Ababa, Ethiopia.
- Lexical Complexity Detection and Simplification in Amharic Text Using Machine Learning Approach. IEEE 4th International Conference on ICT for Development for Africa, November 2022, Bahir Dar, Ethiopia.

Awards & Honors

- Best MSc Thesis, Bahir Dar University, Bahir Dar, Ethiopia, August 2022

Skills

Languages	Fluent in English and a native speaker of Amharic.
Programming Language	Python Java PHP C++ Flutter $\LaTeX$
Deep Learning	CNN RNN BERT RoBerta Optimization algorithms
Frameworks & Tools	TensorFlow PyTorch NumPy
Databases	MySQL Firebase SQLite SQL
